### Message from the Executive Medicaid Director, Luz E. Cruz

"As part of the State Innovation Model Initiative, I am happy to announce the new technology and information system that will excel the governing of Puerto Rico Medicaid services.

*The implementation of the PRMMIS Module 1 is scheduled for March 26, 2018. PRMMIS Module 1 will be the beginning of a new era for the Puerto Medicaid Enterprise and the Puerto Rico Department of Health.*

*To help keep the user community informed, we are implementing this bi-weekly newsletter to help inform the user community current and future happenings of the PRMMIS project."*

### What is PRMMIS?

The **Puerto Rico Medicaid Management Information System (PRMMIS)** is an integrated group of computer system functions and operational procedures developed per CMS requirements and guidelines to provide operational and reporting excellence for the Medicaid Program.

### Benefits of the PRMMIS

- Transforms the Medicaid enterprise to an information-driven agency
- Leverages modern technology to improve healthcare outcomes
- Improves Medicaid program oversight
- Provides user access to data and meaning information

### What is included in PRMMIS Module 1?

- MCO claim and encounter submission and processing
- Monitoring and reporting of services provided
- Statistical analysis of treatment patterns
- Business intelligence and analytical reporting
- Federal reporting for the T-MSIS file submission

## Future Modules will include

- Spanish language user interface for PRMMIS
- Provider enrollment and monitoring
- Fraud, waste and abuse monitoring
- Managed care enrollment
- System generated capitations payments to the MCOs
